## TELEGRAPH LINE SURELY COMING

Postal Company Will Extend Its Service Throughout This County.

## THE MANAGER SAYS SO

And Predicts That the System Will Be in Operation Not Later Than 1902. Columbus-Wheeling Trolley Line. State Capital Notes.

From a Staff Correspondent.

Columbus, Oct. 11.—Apropos of the discussion of the proposed step of the Postal Telegraph company to extend its service to all principal points in Columbiana county, the statement has been made by no less authority than Mr. W. L. Truesdale, general manager of the western division of the company, with headquarters at Chicago, that the Postal people have been on the alert very actively for some time to cut in on the Western Union in Columbiana county. He ventured the prediction that by not later than 1902 his company would be operating in the county.

The announcement just made that the Postal company has succeeded in closing a deal for the use of the poles of the United States telephone company in Columbiana county shows Mr. Truesdale knows what he is talking about. He said the Western Union had for years been successful in blocking every move of his company to branch out in the southeastern part of Ohio. Mr. Truesdale has just been promoted from the superintendency of the Columbus division of the Postal company to his present berth in the Windy City.

The Columbus, Newark, Zanesville & Wheeling Electric Railway company has been incorporated under the laws of Ohio, with \$150,000 capital. The company proposes to build an electric line extending from Columbus through Newark, Zanesville, Cambridge, Barnesville, and Bridgeport to Wheeling, and is authorized in addition to construct and operate a telephone line along the same route.

The incorporators are all Ohio men, Jos. M. Icks, Lakin C. Taylor, Charles H. Geidd, William O. Littick and John S. Black.

The pharmaceutical examinations were concluded yesterday. A class of 129 was present, among which were three women. The papers will be examined in a day or two and the result made known soon after. Among the applicants were the following: Thomas Williams, William Shanks and Sherman Henderson, of Wellsville; Anthony Thomas, of Columbiana; J. Reed, of Irondale, and John Kerr, formerly of Lisbon but now of Ravenna. They attend Scio college. The questions are said to have been difficult.

William C. Armstrong, at one time a resident of Wellsville, accompanied by his wife, has left this city for Des Moines, Ia., where he will take up the study of medicine. He left Wellsville several years ago for Indianapolis, whence he came here.

## BURGLAR WHITE GOES TO PRISON

Convicted at Lisbon and Sent to the Penitentiary For 18 Months.

## HE WAS A PROFESSIONAL

And Had Enough Keys to Open the Houses of a Town—John Tubbs, of Salem, on Trial for Shooting. Court Matters.

Lisbon, Oct. 10.—(Special)—Eighteen months in prison at hard labor was the sentence pronounced upon Charles White, of New York, by Judge Hole last evening after the jury had found him guilty of breaking into the house of R. N. Loudon, of Madison township, and stealing jewelry valued at \$65. The court assigned Attorney C. C. Connell, of Lisbon, to defend White.

After the prosecution had made out its case, there was no hope for the prisoner. He had no witnesses and did not take the stand himself. White was arrested on his release from the Canton workhouse, where he had served a term for stealing from a Stark county farmer. He is said to be a professional burglar of rare accomplishments. When arrested in Stark county enough keys were found on him to unlock the doors of a whole village.

John Tubbs, of Salem, was placed on trial in common pleas court today. He is charged with shooting Harry Dixon, of that city, with intent to wound and kill. The shooting occurred July 10. The defendant is represented by Attorneys C. S. Speaker, of Lisbon, and L. P. Metzger, of Salem. It required two hours to get a jury satisfactory to both sides. Two jurors were excused by the state because they had signed a petition addressed to Prosecuting Attorney Brookes, asking him to allow Tubbs to plead guilty to assault and battery.

The shooting took place in a bar room and attracted much attention at the time.

Dr. O. A. Rhodes, who dressed Dixon's wounds, was the first witness called. He told of the delicate location of the wound and expressed the opinion that Dixon would almost completely recover from the effect.

Dixon was put on the stand and gave his version of the affair. He said:

"Tubbs came into Garwood's saloon when I was tending bar. After drinking two glasses of beer he asked to speak to me. I stepped in to the next room with him, when he said: 'I hear my wife was up in the woods at your camp.' I replied that I was not keeping track of his wife. 'You —, I am going to kill you,' he said, and drew a revolver and fired. Tubbs then ran out."

The defense claimed that Tubbs had heard that Dixon had been too intimate with Mrs. Tubbs, and went to the saloon to order him to cease his attentions to her, and drew the revolver to intimidate him, and that it was accidentally discharged in the excitement.

Dixon swore he did not know Mrs. Tubbs even by sight until after the shooting. Attorneys for both sides are fighting hard over every point of the case.

## PAINTERS AT WORK

The Two Days' Strike Settled And the Men Resumed Today.

The painters employed by Contractor Timmons at the Dresden pottery, who have been on strike for two days, returned to work this morning.

It was thought the contract taken by the non-union paper hangers would have been completed Tuesday evening, but it was not finished until noon yesterday.

Timmons' men were to have resumed yesterday morning, but refused to do so until the Neils were off the job. The union men were given until a certain hour to return, and if they refused were to consider themselves discharged. They did not comply and it looked as though the contractor would have no force, but the matter was adjusted later and work was resumed this morning.

The feeling against the non-union man was very bitter, as it was claimed their part of the work was intentionally delayed in order to keep the unionists out of work.

Contractor Timmons was inconvenienced a great deal by the temporary suspension of work, and through no fault of his own. It is thought by many that a better system should be

adopted by the union in cases of this kind, as it is plain to every one familiar with the circumstances in the present difficulty that nothing whatever was accomplished by the organization other than to discommode the contractor employing union men and the latter being deprived of several days' work.

## AGAINST ARCHER

DEMOCRATS OF THIS DISTRICT NOMINATE FOR SENATOR.

Albert Lawrence, A Lawyer, of St. Clairsville, Is Their Candidate.

Mr. Lawrence has been a candidate for state representative in former years, but was never elected. He stands well with his party, but has no chance against Senator Archer.

## WHITE DIRT BY THE TON

Said to Be Eaten By People Who Think They Are Getting Flour.

Chicago, Oct. 10.—Without suspecting it, consumers of flour, sugar and candy in this country annually eat \$2,000,000 pounds of a mineral called barytes.

Started at this discovery of this fact, the Illinois pure food commission will ask that a national statute be enacted to put an end to the enormous traffic in this mineral. The amount of the annual profits runs into millions of dollars. Mines in three states are constantly engaged in turning out the mineral.

Barytes is sold at \$10 to \$12 a ton, and is valuable because of its weight and resemblance, when pulverized, to flour and powdered sugar. Analysis of flour obtained from mills said to receive regular consignments of barytes, have shown it to contain one-fifth in weight of the mineral.

The headquarters of the barytes producing interests is at Lynchburg, Va. Mills which are known to use barytes are located as follows: Two in St. Louis, two in Oshita, one in New York city, two in Marletta, O., and one in Norfolk, Va. These are all the mills whose products have been analyzed.

## HELD FOR COURT UNDER \$500 BOND

Geo. P. Lindlay, Who Cut Charles Orr, Released From the City Jail.

## MAN WHO WAS INJURED

Is Now Said By His Physicians to Be Out of Danger—The Accused Maintains That He Acted Only in Self-Defense.

George P. Lindlay, who had been a prisoner in the city jail since Sunday night, charged with stabbing Charles Orr, secured his release last evening and gave bond for his appearance in the court of common pleas.

Mayor Davidson was given positive assurance yesterday afternoon by Orr's physicians that he is out of danger, and at the request of Lindlay's attorney his honor agreed to give the accused man a preliminary hearing. Lindlay waived a hearing and was bound over to court. His bond was placed at \$500, which was readily furnished and the prisoner was released from custody.

During his incarceration in the city jail Lindlay was made as comfortable as possible. Meals were furnished him from a hotel and many of his friends kept him well supplied with "side dishes." He was very much worried the first few days following his confinement, but on learning that Orr was improving, he felt considerably relieved.

In the affidavit filed against Lindlay and signed by Orr, he is charged with intent to kill. He has claimed all along that he acted in self-defense, and says he never for a moment entertained the least idea of trying to kill his victim.

## MISSIONARY WORK

Able And Interestingly Discussed at St. John's Lutheran Church.

A most excellent missionary program was carried out at St. John's Evangelical Lutheran church last night. The pastor, Rev. J. G. Reinartz, spoke on "The Secret of Missionary Work in the Moravian Church." That church has a missionary either in home or foreign fields, for every 58 members. Education and consecration of men and means were especially dwelt upon. Miss Minnie Agner read a very instructive paper on "Moral Stamina." Bible questions were answered by Miss Anna Horst and Mr. H. Shidmiller. Mrs. Kleinogel gave a full account of the apostles and their followers, showing that in God's providence the blood of the martyrs proved to be the seed of the church.

At the close Mrs. Caroline Deldrick gave an interesting and full account of the late missionary convention at Rochester, Pa., and a resume of the address of Dr. Richards, of Zanesville, on Lutheran missionary work in Porto Rico.

## VERDICT FOR PLAINTIFF

Jury in the Householder-Rowe Case Awards Plaintiff \$20.13.

Twenty witnesses were subpoenaed, 13 of whom were examined. The case occupied an entire day and was one of the hardest fought that has been tried in a local court for some time.

When arrested in Stark county enough keys were found on him to unlock the doors of a whole village.

John Tubbs, of Salem, was placed on trial in common pleas court today. He is charged with shooting Harry Dixon, of that city, with intent to wound and kill. The shooting occurred July 10. The defendant is represented by Attorneys C. S. Speaker, of Lisbon, and L. P. Metzger, of Salem. It required two hours to get a jury satisfactory to both sides. Two jurors were excused by the state because they had signed a petition addressed to Prosecuting Attorney Brookes, asking him to allow Tubbs to plead guilty to assault and battery.

The shooting took place in a bar room and attracted much attention at the time.

Dr. O. A. Rhodes, who dressed Dixon's wounds, was the first witness called. He told of the delicate location of the wound and expressed the opinion that Dixon would almost completely recover from the effect.

Dixon was put on the stand and gave his version of the affair. He said:

"Tubbs came into Garwood's saloon when I was tending bar. After drinking two glasses of beer he asked to speak to me. I stepped in to the next room with him, when he said: 'I hear my wife was up in the woods at your camp.' I replied that I was not keeping track of his wife. 'You —, I am going to kill you,' he said, and drew a revolver and fired. Tubbs then ran out."

The defense claimed that Tubbs had heard that Dixon had been too intimate with Mrs. Tubbs, and went to the saloon to order him to cease his attentions to her, and drew the revolver to intimidate him, and that it was accidentally discharged in the excitement.

Dixon swore he did not know Mrs. Tubbs even by sight until after the shooting. Attorneys for both sides are fighting hard over every point of the case.

## PAINTERS AT WORK

The Two Days' Strike Settled And the Men Resumed Today.

The painters employed by Contractor Timmons at the Dresden pottery, who have been on strike for two days, returned to work this morning.

It was thought the contract taken by the non-union paper hangers would have been completed Tuesday evening, but it was not finished until noon yesterday.

Timmons' men were to have resumed yesterday morning, but refused to do so until the Nells were off the job. The union men were given until a certain hour to return, and if they refused were to consider themselves discharged. They did not comply and it looked as though the contractor would have no force, but the matter was adjusted later and work was resumed this morning.

The feeling against the non-union man was very bitter, as it was claimed their part of the work was intentionally delayed in order to keep the unionists out of work.

Contractor Timmons was inconvenienced a great deal by the temporary suspension of work, and through no fault of his own. It is thought by many that a better system should be

adopted by the union in cases of this kind, as it is plain to every one familiar with the circumstances in the present difficulty that nothing whatever was accomplished by the organization other than to discommode the contractor employing union men and the latter being deprived of several days' work.

## AGAINST ARCHER

DEMOCRATS OF THIS DISTRICT NOMINATE FOR SENATOR.

Albert Lawrence, A Lawyer, of St. Clairsville, Is Their Candidate.

Bellaire, Oct. 10.—(Special)—The Democratic senatorial convention for the joint Twenty-Second-Second, held here today, was a slimly attended affair. Hon. Albert Lawrence, a lawyer of St. Clairsville, was nominated without opposition.

Mr. Lawrence has been a candidate for state representative in former years, but was never elected. He stands well with his party, but has no chance against Senator Archer.

## WHITE DIRT BY THE TON

Said to Be Eaten By People Who Think They Are Getting Flour.

Chicago, Oct. 10.—Without suspecting it, consumers of flour, sugar and candy in this country annually eat 83,000,000 pounds of a mineral called barytes.

Startled at this discovery of this fact, the Illinois pure food commission will ask that a national statute be enacted to put an end to the enormous traffic in this mineral. The amount of the annual profits runs into millions of dollars. Mines in three states are constantly engaged in turning out the mineral.

Barytes is sold at \$10 to \$12 a ton, and is valuable because of its weight and resemblance, when pulverized, to flour and powdered sugar. Analysis of flour obtained from mills said to receive regular consignments of barytes, have shown it to contain one-fifth in weight of the mineral.

The headquarters of the barytes producing interests is at Lynchburg, Va. Mills which are known to use barytes are located as follows: Two in St. Louis, two in Oshita, one in New York city, two in Marietta, O., and one in Norfolk, Va. These are all the mills whose products have been analyzed.

## HELD FOR COURT UNDER \$500 BOND

Geo. P. Lindlay, Who Cut Charles Orr, Released From the City Jail.

## MAN WHO WAS INJURED

Is Now Said By His Physicians to Be Out of Danger—The Accused Maintains That He Acted Only in Self-Defense.

George P. Lindlay, who had been a prisoner in the city jail since Sunday night, charged with stabbing Charles Orr, secured his release last evening and gave bond for his appearance in the court of common pleas.

Mayor Davidson was given positive assurance yesterday afternoon by Orr's physicians that he is out of danger, and at the request of Lindlay's attorney his honor agreed to give the accused man a preliminary hearing. Lindlay waived a hearing and was bound over to court. His bond was placed at \$500, which was readily furnished and the prisoner was released from custody.

During his incarceration in the city jail Lindlay was made as comfortable as possible. Meals were furnished him from a hotel and many of his friends kept him well supplied with "side dishes." He was very much worried the first few days following his confinement, but on learning that Orr was improving, he felt considerably relieved.

In the affidavit filed against Lindlay and signed by Orr, he is charged with intent to kill. He has claimed all along that he acted in self-defense, and says he never for a moment entertained the least idea of trying to kill his victim.

## MISSIONARY WORK

Able And Interestingly Discussed at St. John's Lutheran Church.

A most excellent missionary program was carried out at St. John's Evangelical Lutheran church last night. The pastor, Rev. J. G. Reinartz, spoke on "The Secret of Missionary Work in the Moravian Church." That church has a missionary either in home or foreign fields, for every 58 members. Education and consecration of men and means were especially dwelt upon. Miss Minnie Agner read a very instructive paper on "Moral Stamina." Bible questions were answered by Miss Anna Horst and Mr. H. Shidemiller. Mrs. Kleinogel gave a full account of the apostles and their followers, showing that in God's providence the blood of the martyrs proved to be the seed of the church.

At the close Mrs. Caroline Deldrick gave an interesting and full account of the late missionary convention at Rochester, Pa., and a resume of the address of Dr. Richards, of Zanesville, on Lutheran missionary work in Porto Rico.

## VERDICT FOR PLAINTIFF

Jury in the Householder-Rowe Case Awards Plaintiff \$20.13.

It took the jury in the Householder-Rowe case, tried yesterday in Justice McCarron's court, an hour and a half to reach a decision. Householder sued to recover \$50 for labor performed, but the verdict of the jury awarded him only \$20.13.

Twenty witnesses were subpoenaed, 13 of whom were examined. The case occupied an entire day and was one of the hardest fought that has been tried in a local court for some time.

## WATER SYSTEM ABOUT READY

Great Work on the New City Reservoir Now Practically Completed.

### CONNECTIONS TO BE MADE

In a Very Short Time—Filtration System Will Be Installed in the Spring. Cost of Work to Date About \$32,000.

Work on the new reservoir of the city water works is so nearly completed that nothing remains but the small task of connecting the necessary pipes. This would have been done by this time only for the delay in getting the pipes on the ground. The connections will be made the latter part of the week, and it is thought the new basin will be put in use next Sunday.

To a person who has not seen the new source of water supply it would be well worth while to investigate it. No city in the state, and but few in the country, has better facilities in this respect than East Liverpool has at the present time. The new reservoir, which is located directly back of the old one, has a capacity of from 10,500,000 to 12,000,000 gallons. While the water this winter will not be filtered, it is so arranged that much of the mud and debris which has passed through the pipes from the old basin will be done away with and the water will be much cleaner.

Not until spring will the filtration system be installed, and when this is once done the Ceramic City can boast of a water works system which is excellent in few cities in the country. Of course, the filters will not make spring water out of the Ohio river "soup," but the improvement will doubtless be so great the water works patrons will drink heavier than ever before.

It is said that the cost of building the new basin is one of its most remarkable factors. Inclusive of the price paid for the ground, which was over \$8,000, the reservoir will stand the city in the neighborhood of \$32,000. Contractors who bid on the work of construction alone wanted something like \$65,000; hence it can be readily seen how much the city saved by doing the work as has been done.

Every detail has been carefully looked after during the progress of the building of the basin, and the job complete is one of rare mechanism. The walls are especially well made and there is absolutely no danger of them giving way, no matter how much water is turned into the basin.

During the work of excavation several peculiar formations of earth and stone were found, many samples of which are yet to be found on the ground. A number of specimens called "rattlers" were among the curiosities, and these have been largely gathered up by relic hunters. The "rattlers" are thought to be composed of an iron substance. Most of the ar oval shaped and all are hollow, while on the inside small stones and pebbles are hidden. By shaking these peculiar specimens a rattling sound is made, which has given them their name. Several fine samples of clay and minerals of different kinds were found as the great hole was being dug.

### CLASSES FOR GIRLS

Young Ladies Will Be Given a Chance for Calisthenics at the Y. M. C. A.

Ever since the spring opening of the Y. M. C. A. there has been a constant and somewhat persistent request on the part of some of the young ladies of the city that a ladies' class be put on. Such a class some years ago was a success.

The experience of different associations is that it is not wise to have a ladies' class in the gymnasium, inasmuch as the Y. M. C. A. has a single purpose—it is a work for young men—and also because such classes have excited adverse criticism. But the directors feel that some effort should be made to assist young ladies and growing girls toward some calisthenical recreation.

Therefore it has been decided to hold an afternoon class in the large upper room Saturdays at 2 p. m. from now on to Christmas. If it is considered wise to continue it at that time arrangements will be made to do so.

The class will consist of both seniors and juniors, as the exercises are the same for both. Physical Director Stephens will have charge. The fee will be \$1.

### LIFE THREATENED

BY THE TOO-ARDENT LOVER OF AN EAST LIVERPOOL GIRL.

Made Her Plight Troth at Revolver's Point And Still Persecutes Her.

Sebring, Oct. 10.—Some weeks ago a respectable young lady of East Liverpool, holding a position at the Sebring pottery, at Sebring, was compelled to leave her position on account of the threatening attitude of a young man who had been an ardent admirer for some months, and whom she refused to receive on account of her dislike for him.

The young lady started on a trip to visit relatives and friends at a town below Wheeling, and was followed by the young man in question, who upon meeting her at a hotel, made her kneel and plight her troth to him by the aid of a revolver. Since then, however, she has sought by every means to evade his attentions, but recently has been in receipt of anonymous communications, which bear the marks of the young man's usual style of composition. He threatens at the first opportunity to take the young lady's life unless she adheres to her promise to become his wife.

The father of the young lady has taken the matter in hand and will probably file an affidavit before a justice and place the young man under bonds to keep the peace.

### A HOUSE OF REST

To Be Provided at Conway for Pennsylvania Company Employees.

At Conway, Pa., the Pennsylvania company will soon erect a "house of rest," for the use of the employees of the company. Bids are now being submitted by local contractors for the construction work, and the erection of the building will be commenced within another month.

The building will be frame and three stories high, containing a dining room, sleeping room, bath room, reading room, gymnasium, and whatever else may be needed to supply comfort for tired railroad men. Such a house was planned some time ago, but has never been completed.

### CLASSES FOR GIRLS

Young Ladies Will Be Given a Chance for Calisthenics at the Y. M. C. A.

Ever since the spring opening of the Y. M. C. A. there has been a constant and somewhat persistent request on the part of some of the young ladies of the city that a ladies' class be put on. Such a class some years ago was a success.

The experience of different associations is that it is not wise to have a ladies' class in the gymnasium, inasmuch as the Y. M. C. A. has a single purpose—it is a work for young men—and also because such classes have excited adverse criticism. But the directors feel that some effort should be made to assist young ladies and growing girls toward some calisthenical recreation.

Therefore it has been decided to hold an afternoon class in the large upper room Saturdays at 2 p. m. from now on to Christmas. If it is considered wise to continue it at that time arrangements will be made to do so. The class will consist of both seniors and juniors, as the exercises are the same for both. Physical Director Stephens will have charge. The fee will be \$1.

### LIFE THREATENED

BY THE TOO-ARDENT LOVER OF AN EAST LIVERPOOL GIRL.

Made Her Plight Troth at Revolver's Point And Still Persecutes Her.

Sebring, Oct. 10.—Some weeks ago a respectable young lady of East Liverpool, holding a position at the Sebring pottery, at Sebring, was compelled to leave her position on account of the threatening attitude of a young man who had been an ardent admirer for some months, and whom she refused to receive on account of her dislike for him.

The young lady started on a trip to visit relatives and friends at a town below Wheeling, and was followed by the young man in question, who upon meeting her at a hotel, made her kneel and plight her troth to him by the aid of a revolver. Since then, however, she has sought by every means to evade his attentions, but recently has been in receipt of anonymous communications, which bear the marks of the young man's usual style of composition. He threatens at the first opportunity to take the young lady's life unless she adheres to her promise to become his wife.

The father of the young lady has taken the matter in hand and will probably file an affidavit before a justice and place the young man under bonds to keep the peace.

### A HOUSE OF REST

To Be Provided at Conway for Pennsylvania Company Employees.

At Conway, Pa., the Pennsylvania company will soon erect a "house of rest," for the use of the employees of the company. The house will in all probability be more of a hotel for the exclusive use of the railroad men. Bids are now being submitted by local contractors for the construction work, and the erection of the building will be commenced within another month.

The building will be frame and three stories high, containing a dining room, sleeping room, bath room, reading room, gymnasium, and whatever else may be needed to supply comfort for tired railroad men. Such a house was planned some time ago, but has never been completed.

## M. E. CONFERENCE

CONVENED IN FIRST CHURCH OF  
BEAVER FALLS, PA.

Bishop Walden Read Scripture Les-  
son—Rev. Dr. Chapman Prayed.  
Memorial Services Held.

Beaver Falls, Pa., Oct. 10.—The twenty-eighth annual meeting of the Pittsburgh conference of the Methodist Episcopal church opened in the First church of Beaver Falls. Bishop J. M. Walden, of Cincinnati, presided. He read the scripture lesson and the Rev. H. L. Chapman, D. D., of Greensburg, led in prayer. After a second scripture lesson read by the bishop, and the singing of "Jesus, Lover of My Soul," the business meeting began.

The Rev. Nathaniel P. Kerr, secretary of conference for 11 years, called the roll. Nearly 300 ministers answered to their roll. Secretary Kerr, while calling the roll, announced the death of the following members of conference during the past year: The Rev. R. Cartwright, Bridgewater; the Rev. J. B. Uber, Bridgewater; the Rev. J. S. Wakefield, Pittsburgh; the Rev. Dr. A. L. Long, who died in England, and Dr. John Conner, of Beaver. Conference then re-elected the Rev. Kerr secretary, who named his assistants as follows: The Rev. S. A. Bash, N. L. Brown, J. W. G. Fast and William Medley, all of whom were assistants last year. The Rev. C. N. Miller was elected statistical secretary and his assistants are the Revs. J. K. Howe, F. H. Callahan, Paul Weyland and R. C. Wolf. Dr. J. Howard was elected treasurer. The last assistant treasurers are the Revs. Howell, W. E. Barrens, N. H. Sanner and P. C. Brooks. A number of transferred ministers were introduced into the conference. On motion of Dr. T. N. Boyle a committee of five on "the state of the country" was arranged for.

Bishop Walden introduced the regular order of business to give the Rev. M. V. B. Mason, D. D., the distinguished colored divine, an opportunity to speak in behalf of the Freedmen's Aid and Southern Educational society. A solemn memorial service in the honor of the members of the conference and of ministers' widows who died during the year was held. The exercises were very impressive. "Asleep in Jesus" was sung, a prayer was offered by Dr. L. McGuire, and a memoir of each of the dead brethren was read. Yesterday morning's session concluded with a communion service.

At 2 o'clock yesterday afternoon Bishop Walden made a short address, in which he stated that he had already presided at five conferences this fall. He expressed the desire that this would prove a spiritual session, as had been wished by the local preachers of other denominations in their address Tuesday night. He closed by saying:

"Let us mean business in our religious work."

## BUILDINGS WERE DEMOLISHED.

Number of Persons Hurt In Boiler  
Explosion, at Erie, Pa.—One  
May Die.

Erie, Pa., Oct. 10.—A large boiler in the brass foundry of the Hayes Manufacturing company, on West Eleventh street, exploded with terrific force and completely demolished the three-story brick building in which it stood. This building was an old one, in the rear of the factory proper. Adjoining this old building and directly back of the Liebel house, which fronts on State street, was another three-story brick, used as a hotel annex. This hotel annex was also completely demolished, nothing but a portion of the side wall remaining.

At the time of the explosion supper was being served and six girls, who were in the kitchen, were carried down in the wreck. A general fire alarm was sent in and in a very few moments the entire department was at work extinguishing the flames which had started and rescuing the injured.

The most seriously injured were:  
Mrs. Ella Dolan, cook, badly burned

and cut, found wedged against hot cooking range, and may die.

Frances Levenbuski, silver girl, both legs and one arm broken, badly cut, injured internally, and may die.

Six other persons were slightly hurt.

The hotel was badly injured by the concussion, all the windows wrecked, as were all the plate glass windows in the stores in that vicinity. The drift of the explosion passed through the hotel bar room, and that part of the hotel was completely wrecked. How anyone escaped serious injury seems marvelous.

The cause of the boiler explosion is unknown. Damage to the Hayes Manufacturing company and to the hotel, about \$50,000.

## WILL APPEAL TO COURT.

Garman Says He Believes Coray  
Can't Be Substituted on Penn-

Wilkesbarre, Pa., Oct. 10.—Ex-Democratic State Chairman Garman arrived from Philadelphia. In an interview he said:

"In my judgment Mr. Coray cannot be substituted for Mr. Palm on the Democratic ticket and the court will be asked to determine whether my judgment is or is not correct. The alliance which is proposed to bring about is humiliating to every true Democrat."

Mr. Garman would not say whether he would personally conduct the legal proceedings that may be taken to restrain the Democratic state central committee from placing Mr. Coray's name on the ticket, but it is likely that he will.

D., pastor of St. Luke's Lutheran church, of Philadelphia.

## M. E. CONFERENCE

CONVENED IN FIRST CHURCH OF  
BEAVER FALLS, PA.

Bishop Walden Read Scripture Les-  
son—Rev. Dr. Chapman Prayed.  
Memorial Services Held.

Beaver Falls, Pa., Oct. 10.—The twenty-eighth annual meeting of the Pittsburgh conference of the Methodist Episcopal church opened in the First church of Beaver Falls. Bishop J. M. Walden, of Cincinnati, presided. He read the scripture lesson and the Rev. H. L. Chapman, D. D. of Greensburg, led in prayer. After a second scripture lesson read by the bishop, and the singing of "Jesus, Lover of My Soul," the business meeting began.

The Rev. Nathaniel P. Kerr, secretary of conference for 11 years, called the roll. Nearly 300 ministers answered to their roll. Secretary Kerr, while calling the roll, announced the death of the following members of conference during the past year: The Rev. R. Cartwright, Bridgewater; the Rev. J. B. Ueber, Bridgeport; the Rev. J. S. Wakefield, Pittsburgh; the Rev. Dr. A. L. Long, who died in England, and Dr. John Conner, of Beaver. Conference then re-elected the Rev. Kerr secretary, who named his assistants as follows: The Rev. S. A. Bash, N. L. Brown, J. W. G. Fast and William Medley, all of whom were assistants last year. The Rev. C. N. Miller was elected statistical secretary and his assistants are the Revs. J. K. Howe, F. H. Callahan, Paul Weyland and R. C. Wolf. Dr. J. Howard was elected treasurer. The assistant treasurers are the Revs. Howell, W. E. Barrens, N. H. Sanner and P. C. Brooks. A number of transferred ministers were introduced into the conference. On motion of Dr. T. N. Boyle a committee of five on "the state of the country" was arranged for.

Bishop Walden introduced the regular order of business to give the Rev. M. V. B. Mason, D. D., the distinguished colored divine, an opportunity to speak in behalf of the Freedmen's Aid and Southern Educational society.

A solemn memorial service in the honor of the members of the conference and of ministers' widows who died during the year was held. The exercises were very impressive. "Asleep in Jesus" was sung, a prayer was offered by Dr. L. McGuire, and a memoir of each of the dead brethren was read. Yesterday morning's session concluded with a communion service.

At 2 o'clock yesterday afternoon Bishop Walden made a short address, in which he stated that he had already presided at five conferences this fall. He expressed the desire that this would prove a spiritual session, as had been wished by the local preachers of other denominations in their address Tuesday night. He closed by saying:

"Let us mean business in our religious work."

## BUILDINGS WERE DEMOLISHED.

Number of Persons Hurt In Boiler  
Explosion, at Erie, Pa.—One  
May Die.

Erie, Pa., Oct. 10.—A large boiler in the brass foundry of the Hayes Manufacturing company, on West Eleventh street, exploded with terrific force and completely demolished the three-story brick building in which it stood. This building was an old one, in the rear of the factory proper. Adjoining this old building and directly back of the Liebel house, which fronts on State street, was another three-story brick, used as a hotel annex. This hotel annex was also completely demolished, nothing but a portion of the side wall remaining.

At the time of the explosion supper was being served and six girls, who were in the kitchen, were carried down in the wreck. A general fire alarm was sent in and in a very few moments the entire department was at work extinguishing the flames which had started and rescuing the injured.

The most seriously injured were:

Mrs. Ella Dolan, cook, badly burned

and cut, round wedged against hot cooking range, and may die.

Frances Levenbuski, silver girl, both legs and one arm broken, badly cut, injured internally, and may die.

Six other persons were slightly hurt.

The hotel was badly injured by the concussion, all the windows wrecked, as were all the plate glass windows in the stores in that vicinity. The drift of the explosion passed through the hotel bar room, and that part of the hotel was completely wrecked. How anyone escaped serious injury seems marvelous.

The cause of the boiler explosion is unknown. Damage to the Hayes Manufacturing company and to the hotel, about \$50,000.

## WILL APPEAL TO COURT.

Garman Says He Believes Coray  
Can't Be Substituted on Penn-  
sylvania Ticket.

Wilkesbarre, Pa., Oct. 10.—Ex-Democratic State Chairman Garman arrived from Philadelphia. In an interview he said:

"In my judgment Mr. Coray cannot be substituted for Mr. Palm on the Democratic ticket and the court will be asked to determine whether my judgment is or is not correct. The alliance which it is proposed to bring about is humiliating to every true Democrat."

Mr. Garman would not say whether he would personally conduct the legal proceedings that may be taken to restrain the Democratic state central committee from placing Mr. Coray's name on the ticket, but it is likely that he will.

## SABBATH SCHOOL ASSOCIATION Of Pennsylvania, Met at Chester, Pa. Financial Pledges.

Chester, Pa., Oct. 10.—The opening hours of the second day's session of the Pennsylvania State Sabbath School association were occupied in the reception of reports and the work of securing pledges of financial aid in the coming 12 months. The money was all pledged and in the list of donations was \$2,000 from John Wanamaker and \$1,500 from H. J. Heinz.

Chairman H. J. Heinz read the annual report of the executive committee, which stated that for the first time in the history of the association conventions have been held the past year in every county. Telegraphic greeting was read from the Nova Scotia association and a response was forwarded.

A conference on "The Church and Its Sabbath School" was conducted by Alfred Day, the general secretary of the Michigan association, and there was a general participation in this discussion.

During the day conferences were conducted by Rev. Rufus W. Miller, D. D., secretary of the Sunday school of the Reformed church, on "The Home Department;" by Rev. W. W. White, D. D., of Mont Clair, N. J., on "Bible Reading," and a meeting of the primary superintendents. The concluding meeting of the day was a drill in Bible facts, conducted by Rev. H. L. Fry, D. D., pastor of St. Luke's Lutheran church, of Philadelphia.

The evening speaker was Rev. C. A. Oliver, of York, who talked on "Bible Study Essential to Spiritual Growth."

The following officers were elected: President, John Wanamaker; vice presidents, A. P. Burchfield, of Pittsburgh; Rev. Rufus W. Miller, of Reading; recording secretary, Rev. William McNally, of Harrisburg; treasurer, Samuel Shaw, of Philadelphia; executive committee, Samuel Young, Jr., Pittsburgh; N. T. Arnold, of Ridgway; Rev. J. B. Shontz, of Chambersburg; H. J. ## REPUBLICAN TICKET.

### FOR STATE OFFICERS:

Governor—GEORGE K. NASH.  
Lieutenant Governor—JAMES L. PRICE.  
Judge of Supreme Court—JAMES L. PRICE.  
Attorney General—JOHN M. SHEETS.  
Clerk of Supreme Court—LAWSON E. EM-  
ERSON.  
State Treasurer—ISAAC B. CAMERON.  
Member Board of Public Works—W. G.  
JOHNSON.

### COUNTY AND DISTRICT.

Common Pleas Judge—H. W. HARTER.  
State Senator—FRANK B. ARCHER.  
State Senator—CHARLES C. CONNELL.  
Representative—SAMUEL BUELL.  
Representative—D. W. CRIST.  
Sheriff—SAMUEL D. NORAGON.  
Auditor—J. F. ADAMS.  
Treasurer—W. A. THOMPSON.  
Commissioner—EDEN REIDER.  
Infirmary Director—G. W. ARMSTRONG.

The recent well attended and enthu-  
siastic meeting of the city Republican  
central committee is a most encourag-  
ing sign. The zeal and earnestness  
there displayed afford pretty good evi-  
dence that the gentlemen of the com-  
mittee are fully alive to the import-  
ance of the state campaign, and will  
cooperate with the state committee in  
the effort to make a grand showing for  
one of the strongest and best  
tickets ever placed before the voters  
of Ohio for their support. There can  
be no doubt as to how East Liverpool  
and Columbiana county will vote. But  
there is a danger that some voters,  
because they are too busy to devote  
much time to politics and because of  
absolute confidence that the Republi-  
can ticket will be elected, may neg-  
lect to go to the polls. Now the is-  
sue of the campaign is a sharply drawn  
one between the continuance of an  
honest, capable and trustworthy ad-  
ministration and the substitution  
thereof of a set of men who are un-  
tried in public affairs and willing to  
subscribe to any political creed that  
is likely to catch votes. It is the duty  
of Republicans, by the strongest ef-  
fort possible, to set the seal of their  
approval upon the Republican admin-

which the people have prospered as

manship. Merely to win is not enough;  
we want to win by such a decisive ma-  
jority as shall discourage the opposi-

against men and measures that de-

The campaign is to be short, but the  
names of the men who are conducting  
it are a guarantee that it will be ear-  
nest. The main thing is to get the  
Republican vote out, and Columbiana  
county efforts should be bent in that  
direction and relaxed not. Let us  
prove that this grand old Republican  
county stands loyally by its friends  
and benefactors.

acceptance, declared that he did not

his campaign, but his adherents are

can't see the wisdom of investing cash  
with no prospect of a return.

"Ohio," remarks the State Journal,  
"is a Republican state, when the Re-  
publicans vote. Otherwise it is Demo-  
cratic." This is a fact that should be  
remembered. Let Democrats receive a  
forcible reminder November 5 that  
Ohio Republicans are voting this fall.

## OBITUARY.

### R. F. Stewart.

R. F. Stewart, better known as  
Frank Stewart, an old resident of East  
Liverpool, and for many years one of  
her foremost business men, passed  
away at his country home in Hancock  
county, West Virginia, yesterday, from  
an attack of typhoid fever.

Mr. Stewart was 51 years of age and  
is survived by a wife, Mrs. Mary Ann  
Stewart, and five children, Mrs. J. M.  
Manor, Miss Clara E., George H., Gil-  
bert and Cecil Jane Stewart.

Frank Stewart was born in Hancock  
county in 1850, and spent the greater  
portion of his life as a farmer in the  
country near what is now Chester, W.  
Va. In 1879 he moved to East Liver-  
pool and a year later erected a large  
frame hotel at the corner of Sixth and  
Washington streets. In 1884 the build-  
ing was totally destroyed by fire, eight  
persons losing their lives in the con-  
flagration. The present Hotel Grand  
building was constructed almost im-  
mediately, and in a business room just  
south of the hotel lobby Mr. Stewart,  
in 1885, embarked in the drug trade,  
continuing the same for five years.  
Soon afterward Mr. Stewart and his  
eldest son, William E. Stewart, engaged  
in the general insurance business, and  
in 1893 the son assumed the man-  
agement of the Hotel Grand, continu-  
ing at the head of that popular hostelry  
until the son's tragic and untimely  
death on July 17, 1897. He was killed  
by lightning in a barn on the home  
farm in Hancock county. The father  
never ceased to mourn the loss of his  
son, for whom he had an affection that  
was touching. Mr. Stewart said then  
and at many times since that it was  
his dearest wish to die on the same  
farm where his son met death, and the  
desire was gratified.

For the past two years the gentle-  
man has been in business at Pitts-  
burg, and spent a greater part of his  
time in that city, save for occasional  
visits to the farm. Two weeks ago  
he became ill and requested that he  
be taken home at once.

Funeral services will be conducted  
at the late home, 474 Calcutta road,  
at 2 o'clock tomorrow afternoon, Rev.  
C. G. Jordan officiating. The local  
order of Elks will attend the services  
in a body and conduct a ceremony at  
the grave. Interment will be made at  
Riverview. The remains may be  
viewed between the hours of 8 and 10  
o'clock this evening.

### Mrs. Levi Arb.

Mrs. Levi Arb, aged 57, died of drop-  
sy and lung trouble at 12:55 today  
at the home of her brother, John  
Twaddle, in the West End. She is  
survived by a mother, a daughter, Miss  
Livvie Eberling, three sons, Robert,  
John and Homer, and two sisters,  
Mrs. Mary Arb. of this city, and Mrs.  
Lou Hayes, of Monaca. Arrangements  
for the funeral have not yet been  
made.

## AT THE THEATER

The cast engaged for the production  
of the new musical comedy, "Papa's  
Baby," which is to be seen at the  
Grand Opera House on Saturday night,  
includes an unusual grouping in one  
organization of recent vaudeville stars.  
Watson, Hutchings and Edwards, the  
recognized "headliners" of the profes-  
sion, are featured in the chief roles  
of the piece, and the ranks of the  
vaudevillians have been further deple-  
ted by a raid by Manager Wright which  
resulted in securing the Nichols sis-  
ters, the chief exponents of Ethiopian  
comedy on the stage, and Redway,  
Duffin and Decay, the acrobatic sen-  
sation of the year. The first five ar-  
tists named have reputations on the le-  
gitimate stage equal to their vaudeville  
renewal, and are noted for their ability  
in comedy as well as entertainment.

Fred Raymond's comedy, "The Mis-  
souri Girl," delighted a large house at  
the Grand last evening. It is a very  
clever play and the leading roles,  
taken by Fred and Sadie Raymond,  
are well handled. The scenery is  
fine and the show in every way worth  
seeing.

## POTTERY NEWS

Samuel Owen, foreman of the deco-  
rating department of the Sevres Chi-  
na company, yesterday gave the em-  
ployees of his department a dinner.  
Mr. Owen was recently married and  
the entertainment was given in honor  
of his return from a trip. The lunch  
was followed by speechmaking, the  
principal address being delivered by  
William Higginson. The affair was  
greatly enjoyed.

Sebring is to have another pottery.  
This will be the fourth one. It will  
be built in the spring and will be the  
same size as the three other establish-  
ments which are now in operation.  
The Sebrings expect to have a popu-  
lation of 10,000 inside of ten years.

## BILL OF THE PLAY.

Effie Elsler is the star of "The Woo-  
ing of Priscilla."

"The Mimic Mummy" is the title of  
a comedy.

Sembrich will be the coloratura singer  
this season of the Metropolitan  
Opera House forces.

James K. Hackett has a new play by  
an American author entitled, "A  
Chance Ambassador."

The sale of the music of "Florodora"  
is enormous. There has been nothing  
like it since the days of "Erminie."

"A Gambler's Daughter," the new  
melodrama by Owen Davis, bids fair  
to be one of the big winners this  
season.

Ada Rehan's managers deny a report  
somewhat extensively circulated that  
she will never again appear on the  
stage.

The dirt bank girls, well known in  
coal mining regions, are among the  
characters to be seen in "Pennsylvania."

Augustus Pitou and Joseph Arthur  
are at work on a dramatization of  
Ibsen's novel, "He Fell in Love With  
His Wife."

Ellen Terry says she is now too old  
for such sweetheart roles as Mar-  
guerite and Olivia, and will play them  
for the last time on her forthcoming  
American tour.

### Sure Proof.

When France and Germany were at  
war, an Englishman was arrested by  
the French and accused of being a  
German spy. A letter dated "Berlin"  
and signed by his mother was found  
upon him. He was tried by drumhead  
court martial and condemned to be  
shot.

On the way to the place of execution  
he said that he had left something be-  
hind and insisted on going back for it.  
"You can't go back," was the reply.  
"You are about to be shot."  
"I can't help that," said he. "I have  
left something, and I must get it."  
"What have you left?"  
"My umbrella."

That settled it. He was released. No  
one but an Englishman, said his cap-  
tors, could be such a thoroughgoing  
lunatic as that.

The recent well attended and enthu-  
 siastic meeting of the city Republican  
 central committee is a most encourag-  
 ing sign. The zeal and earnestness  
 there displayed afford pretty good evi-  
 dence that the gentlemen of the com-  
 mittee are fully alive to the import-  
 ance of the state campaign, and will  
 cooperate with the state committee in  
 the effort to make a grand showing  
 for one of the strongest and best  
 tickets ever placed before the voters  
 of Ohio for their support. There can  
 be no doubt as to how East Liverpool  
 and Columbiana county will vote. But  
 there is a danger that some voters,  
 because they are too busy to devote  
 much time to politics and because of  
 absolute confidence that the Republi-  
 can ticket will be elected, may ne-  
 glect to go to the polls. Now the is-  
 sue of the campaign is a sharply drawn  
 one between the continuance of an  
 honest, capable and trustworthy ad-  
 ministration and the substitution  
 thereof of a set of men who are un-  
 tried in public affairs and willing to

 Mr. Owen was recently married and  
 the entertainment was given in honor  
 of his return from a trip. The lunch  
 was followed by speechmaking, the  
 principal address being delivered by  
 William Higginson. The affair was  
 greatly enjoyed.

 The Sebrings expect to have a popu-  
 lation of 10,000 inside of ten years.

 son.

Ada Rehan's managers deny a report

The dirt bank girls, well known in

## THE TROTTERING CIRCUIT.

Darn-if-I-no is the classic (?) name of  
 a horse raced in Illinois.

## Sure Proof.

When France and Germany were at  
 war, an Englishman was arrested by  
 the French and accused of being a  
 German spy. A letter dated "Berlin"  
 and signed by his mother was found  
 upon him. He was tried by drumhead  
 court martial and condemned to be  
 shot.

On the way to the place of execution  
 he said that he had left something be-  
 hind and insisted on going back for it.  
 "You can't go back," was the reply.  
 "You are about to be shot."  
 "I can't help that," said he. "I have  
 left something, and I must get it."  
 "What have you left?"  
 "My umbrella."  
 That settled it. He was released. No  
 one but an Englishman, said his cap-  
 tors, could be such a thoroughgoing  
 imbecile as that.

This tear compelling tale is from the London Globe: "A young lady bought a dormouse. A few months later the friend wrote to say that the pet did not seem very lively and was refusing its food. Would she come and inspect it? Tell of Magical Results Brought About in Burning, Itching, Bleeding Skin Troubles by Dr. Chase's Ointment.

Dr. Chase's Ointment draws more praise from ministers, physicians and lawyers than any other medicine in the world. It is endorsed by every profession.

Extracts from their Letters.  
Rev. W. N. Edwards, Baptist minister, 109 Trinity Place, Buffalo, N. Y., writes: "For over fifteen years the itching piles have been a source of constant annoyance to me, and frequently, too, the suffering has become intense. At times there was bleeding and the itching and burning was almost unbearable. The results I have derived from Dr. Chase's Ointment have been magical and the benefits lasting. I feel it a duty to fellow sufferers to recommend it."

Rev. J. N. Van Natter, Methodist minister, Albion, Wis., writes: "My wife was terribly afflicted with protruding piles and contemplated a surgical operation when her notice was drawn to Dr. Chase's Ointment, and less than one box effected a cure."  
"I then used it for an unsightly and troublesome skin affection, which had baffled medical skill for twenty-five years. Dr. Chase's Ointment thoroughly cured it. For piles and skin disease it is worth its weight in gold."

Rev. J. A. Baldwin, Baptist minister, Arkona, Ont., writes: "For over twenty years I was a great sufferer from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair I was told to use Dr. Chase's Ointment and did so, finding relief at once. I used three boxes, and am entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them as it has me."

Rev. Chas. Fish, Methodist minister, 192 Dunn Avenue, Toronto, Ont., writes: "Ten years ago eczema began on my ears and spread over my head and hands. During that time I was a great sufferer. I tried many remedies, and some of the best physicians—specialists on skin diseases—treated me. The first box of Dr. Chase's Ointment gave much relief and five boxes completely cured me. I think my cure a marvel, and gladly recommend Dr. Chase's Ointment."  
"Just as good for every form of skin trouble, no matter how long standing. 50 cents a box, all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y."

# SCHLEY WAS EXCITED

During Bombardment of the Colon, Potts Testified at Inquiry.

## ORDER OF LONG TO SAMPSON,

In Which He Was Admonished

Against Exposure of American Vessels to Fire of Strongly Fortified Ports, to Figure in Testimony.

Washington, Oct. 10.—In the Schley naval court of inquiry Lieutenant Mark L. Bristol completed his testimony, begun Tuesday, and three new witnesses were introduced. They were Rear Admiral Henry C. Taylor, who as captain commanded the battleship Indiana during the war with Spain; Lieutenant Commander Temple M. Potts, who was navigator of the battleship Massachusetts during that period, and Lieutenant Edward F. Leiper, who was on the New Orleans during the war, the last named being still on the stand when the court adjourned until today.

Admiral Taylor related incidents of the battle off Santiago, July 3, including the Brooklyn's famous turn. He said that none of the Spanish ships had made any effort to ram the American vessels when they came out of the harbor at Santiago.

Commander Potts' testimony dealt especially with the bombardment of the Colon. Answering a question from Judge Advocate Lemly as to the conduct of Commodore Schley during that engagement, he said it was that of a man laboring under great mental excitement and of a man who was anxious to discharge as soon as possible a disagreeable duty.

Lieutenant Leiper expressed the opinion that the Spanish shore batteries at Santiago had not been at any time formidable.

Accusation Against Schley.  
During Commander Potts' examination Mr. Rayner secured permission from the court to introduce as evidence the order of Secretary Long to 'Admiral Sampson, dated April 6, in which he was admonished against the exposure of the American vessels to the fire of strongly fortified ports. The paragraph in that order which he especially wished to have considered reads as follows:

"The department does not wish the vessels of your squadron to be exposed to the fire of the batteries at Havana, Santiago de Cuba or other strongly fortified ports in Cuba, unless the more formidable Spanish vessels should take refuge within those harbors. Even in this case the department would suggest that a rigid blockade and employment of our torpedo boats might accomplish the desired object, viz: The destruction of the enemy's vessels, without subjecting unnecessarily our own men of war to the fire of the land batteries."

This dispatch also contains the following order:  
"The department further desires that in case of war you will maintain a strict blockade of Cuba, particularly at the port of Havana, Matanzas, and, if possible, of Santiago de Cuba, Manzanillo and Cienfuegos."

# DOUBT AND HESITATION

Regarding Future Course of Prices Again Reflected in Stock Market, Wednesday.

New York, Oct. 10.—The same doubt and hesitation regarding the future course of prices was reflected in Wednesday's stock market as in Tuesday's. Speculation was listless and apathetic, and the sentiment of the small traders whose operations made up the market underwent many variations. The annual report of Brooklyn Transit, which was published after the closing of the market Tuesday night, was interpreted unfavorably in all the current comment, especially in the disclosure that the treasury bonds had been sold during the year. Yet the stock promptly advanced and resisted an attempt on the part of the professional traders to depress the price. The stock advanced at one time 2½, showing the most conspicuous strength in the market. The attempt to advance Atchison on the increase in the Atchison dividend rate, proved abortive, the extreme rise over Tuesday night reaching less than a point and the net only ¼. The doubt over the predicted advance was due to the fact of the shortage in the corn crop. Some of the other southwestern railroads were offered down sharply, as though to emphasize this view. The estimate of the year's wheat crop by an agricultural periodical, placing it at a record figure and at 100,000,000 bushels for Kansas alone, was an opportunity offset to this contention. The election of an additional Standard Oil representative to the Union Pacific board of directors was a verification of another bull prediction. But the bull party hesitated to take up the speculation for an advance, owing to the danger that money flurries may still intervene before the interior movement of currency terminates. Sugar and Amalgamated Copper, which continued active, drifted rather uncertainly, but with a rather firm undertone. Norfolk and Western was bid up nearly 2 points at one time on the assumption that recent accumulation of the stock had been for account of Pennsylvania railroad interests. The market closed irregular. There was a sharp break in Washobee B bonds. The market otherwise was rather dull and irregular. Total sales, par value, \$2,400,000.

United States bonds were all unchanged on the last call.

### CHARGES AGAINST TILLEY.

Rear Admiral Casey Will Go to Samoa to Investigate Them.

Washington, Oct. 10.—It is said at the navy department that the reports of misconduct on the part of Captain Tilley have emanated from the most part from Samoan missionaries. Rear Admiral Silas Casey will proceed to Tutuila aboard his flagship, the Wisconsin, and personally investigate the charges preferred against the captain. Navy department officers are very loath to believe the stories of unbecoming conduct preferred against him, as his conduct heretofore has shown no such trend.

### RUSSIA SUPPORTING EFFORTS TO SECURE MISS STONE.

St. Petersburg, Oct. 10.—The United States ambassador, Charlemagne Tower, has been most active in connection with measures looking to the release of Miss Stone. Mr. Tower has had several interviews on the subject with officials of the foreign office. The Russian government is cordially supporting the efforts being made to secure the release of the American missionary.

## IN MEMORY OF M'KINLEY

Picture of President's Head to Be Placed on Postal Cards, in Issue After December 1.

Washington, Oct. 10.—The postoffice department has decided to place the late President McKinley's head on the new issue of postal cards which will appear shortly after Dec. 1 next. The design, as explained by Acting Postmaster General Madden, includes the year of birth and the year of death immediately at the left and right respectively of the name "McKinley," which will be directly under the head. Above the head will be the words, "Series of 1901," and above that, "One Cent." The inscription, "United States of America," will appear on the postal cards, will be abandoned and replaced at a point lower down, so as to leave space at the upper part of the card, about one-third of the width of the card, clear for postmarks.

For what we have received," etc.—London Globe.

## Four Ministers

Tell of Magical Results Brought About in Burning, Itching, Bleeding Skin Troubles by Dr. Chase's Ointment.

Dr. Chase's Ointment draws more praise from ministers, physicians and lawyers than any other medicine in the world. It is endorsed by every profession.

Extracts from their Letters.

Rev. W. N. Edwards, Baptist minister, 309 Trinity Place, Buffalo, N. Y., writes: "For over fifteen years the itching piles have been a source of constant annoyance to me, and frequently, too, the suffering has become intense. At times there was bleeding and the itching and burning was beyond endurance. The results I have derived from Dr. Chase's Ointment have been magical and the benefits lasting. I feel it a duty to fellow sufferers to recommend it."

Rev. J. N. Van Natter, Methodist minister, Albion, Wis., writes:

"My wife was severely afflicted with protruding piles and contemplated a surgical operation when her notice was drawn to Dr. Chase's Ointment, and less than one box effected a cure."

"I then used it for an unsightly and troublesome skin affection, which had baffled medical skill for twenty-five years. Dr. Chase's Ointment thoroughly cured it. For piles and skin disease it is worth its weight in gold."

Rev. J. A. Baldwin, Baptist minister, Arkona, Ont., writes:

"For over twenty years I was a great sufferer from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair I was told to use Dr. Chase's Ointment and did so, finding relief at once. I used three boxes, and am entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them as it has me."

Rev. Chas. Fish, Methodist minister, 192 Dunn avenue, Toronto, Ont., writes:

"Ten years ago eczema began on my ears and spread over my head and hands. During that time I was a great sufferer. I tried many remedies, and some of the best physicians—specialists on skin diseases—treated me. The first box of Dr. Chase's Ointment gave much relief and five boxes completely cured me. I think my cure a marvel, and gladly recommend Dr. Chase's Ointment."

Just as good for every form of skin trouble, no matter how long standing, 50 cents a box, all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

## SCHLEY WAS EXCITED

During Bombardment of the

Colon, Potts Testified

at Inquiry.

### ORDER OF LONG TO SAMPSON,

In Which He Was Admonished

Against Exposure of American Vessels

to Fire of Strongly Fortified

Ports, to Figure in Testimony.

Washington, Oct. 10.—In the

Schley naval court of inquiry Lieutenant Mark L. Bristol completed his testimony, begun Tuesday, and three new witnesses were introduced. They were Rear Admiral Henry C. Taylor, who as captain commanded the battleship Indiana during the war with Spain; Lieutenant Commander Tempin M. Potts, who was navigator of the battleship Massachusetts during that period; and Lieutenant Edward F. Leiper, who was on the New Orleans during the war, the last named being still on the stand when the court adjourned until today.

Admiral Taylor related incidents of the battle off Santiago, July 3, including the Brooklyn's famous turn. He said that none of the Spanish ships had made any effort to ram the American vessels when they came out of the harbor at Santiago.

Commander Potts' testimony dealt especially with the bombardment of the Colon. Answering a question from Judge Advocate Lemly as to the conduct of Commodore Schley during that engagement, he said it was that of a man laboring under great mental excitement and of a man who was anxious to discharge as soon as possible a disagreeable duty.

Lieutenant Leiper expressed the opinion that the Spanish shore batteries at Santiago had not been at any time formidable.

### Accusation Against Schley.

During Commander Potts' examination Mr. Rayner secured permission from the court to introduce as evidence the order of Secretary Long to Admiral Sampson, dated April 6, in which he was admonished against the exposure of the American vessels to the fire of strongly fortified ports. The paragraph in that order which he especially wished to have considered reads as follows:

"The department does not wish the vessels of your squadron to be exposed to the fire of the batteries at Havana, Santiago de Cuba or other strongly fortified ports in Cuba, unless the more formidable Spanish vessels should take refuge within those harbors. Even in this case the department would suggest that a rigid blockade and employment of our torpedo boats might accomplish the desired object, viz: The destruction of the enemy's vessels, without subjecting unnecessarily our own men of war to the fire of the land batteries."

This dispatch also contains the following order:

"The department further desires that in case of war you will maintain a strict blockade of Cuba, particularly at the port of Havana, Matanzas, and, if possible, of Santiago de Cuba, Manzanillo and Cienfuegos."

### Divorced From Judge McLeary.

## DOUBT AND HESITATION

Regarding Future Course of Prices

Again Reflected in Stock Mar-

ket, Wednesday.

New York, Oct. 10.—The same

doubt and hesitation regarding the future course of prices was reflected in Wednesday's stock market as in Tuesday's. Speculation was listless and apathetic, and the sentiment of the small traders whose operations made up the market underwent many variations. The annual report of Brooklyn Transit, which was published after the closing of the market Tuesday night, was interpreted unfavorably in all the current comment, especially in the disclosure that the treasury bonds had been sold during the year. Yet the stock promptly advanced and resisted an attempt on the part of the professional traders to depress the price. The stock advanced at one time 2 1/2, showing the most conspicuous strength in the market. The attempt to advance Atchison on the increase in the Atchison dividend rate, proved abortive, the extreme rise over Tuesday night reaching less than a point and the net gain only 1/4. The doubt over the predicted advance was due to the fact of the shortage in the corn crop. Some of the other southwestern railroads were offered down sharply, as though to emphasize this view. The estimate of the year's wheat crop by an agricultural periodical, placing it at a record figure and at 100,000,000 bushels for Kansas alone, was an opportune offset to this contention. The election of an additional Standard Oil representative to the Union Pacific board of directors was a verification of another bull prediction. But the bull party hesitated to take up the speculation for an advance, owing to the danger that money flurries may still intervene before the interior movement of currency terminates. Sugar and Amalgamated Copper, which continued active, drifted rather uncertainly, but with a rather firm undertone. Norfolk and Western was bid up nearly 2 points at one time on the assumption that recent accumulation of the stock has been for account of Pennsylvania railroad interests. The market closed irregular.

There was a sharp break in Wash debenture B bonds. The market otherwise was rather dull and irregular. Total sales, par value, \$2,840,000.

United States bonds were all unchanged on the last call.

### CHARGES AGAINST TILLEY.

Rear Admiral Casey Will Go to Samoa to Investigate Them.

Washington, Oct. 10.—It is said at the navy department that the reports of misconduct on the part of Captain Tilley have emanated from the most part from Samoan missionaries. Rear Admiral Silas Casey will proceed to Tutuila aboard his flagship, the Wisconsin, and personally investigate the charges preferred against the captain. Navy department officers are very loath to believe the stories of unbecoming conduct preferred against him, as his conduct heretofore has shown no such trend.

### RUSSIA SUPPORTING EFFORTS

St. Petersburg, Oct. 10.—The United States ambassador, Charlemagne Tower, has been most active in connection with measures looking to the release of Miss Stone. Mr. Tower has had several interviews on the subject with officials of the foreign office. The Russian government is cordially supporting the efforts being made to secure the release of the American missionary.

### IN MEMORY OF M'KINLEY

Picture of President's Head to Be Placed on Postal Cards, in Issue After December 1.

Washington, Oct. 10.—The postoffice department has decided to place the late President McKinley's head on the new issue of postal cards which will appear shortly after Dec. 1 next. The design, as explained by Acting Postmaster General Madden, includes the year of birth and the year of death immediately at the left and right respectively of the name "McKinley," which will be directly under the head. Above the head will be the words, "Series of 1901," and above that, "One Cent." The inscription, "United States of America," now appearing on the postal cards, will be abandoned and replaced at a point lower down, so as to leave space at the upper part of the card, about one-third of the width of the card, clear for postmarks.

Changing the Subject.

An original method of closing a conversation was adopted by a host at a dinner party the other day. A young man had turned it to a topic which he did not care to discuss, and angry glances failed to make any impression. "Now, then," said the host at last, "let's change the conversation. For what we have received," etc.—London Globe.

## BLOW AT DIVORCES.

Strong Position Taken by the House of Bishops, at Episcopal Convention.

## HOUSE OF DEPUTIES TO CONSIDER

The Question Today, It Was Expected—Boston Selected as Place For Holding Next Triennial Convention. Girls' Friendly Society Held Meeting

San Francisco, Oct. 10.—At the triennial Episcopal convention there occurred the adoption, by the house of bishops, by a vote of 37 to 21, of canon 36, which relates to the solemnization of marriage. All of its provisions had previously been argued, except those contained in section four, which forbade the marriage of persons divorced for any cause not existing before marriage.

The house of deputies today will take up the canon on marriage and divorce. "For any cause not existing before marriage" is understood to refer to such causes as insanity, inability to execute a contract, the existence of a living wife or husband, or like reasons which practically render the marriage null and void. This section has been a topic of contention, a strong element in the church holding that the re-marriage of the innocent party to a divorce, granted on the ground of inability, should not be forbidden. The bishops have refused to accept this view of the matter.

The question is by no means settled, as the whole subject is now to come up in the house of deputies, where it is expected to cause a protracted debate. The canon as finally passed by the house of bishops, reads:

## What the Canon Contains.

"Canon 36.—Of the solemnization of matrimony.

"I. The solemnization of matrimony in this church, in which the mutual consent of each party entering into this state of life is given in the presence of a minister, who, having pronounced, in the name of the Holy Trinity, to be man and wife, invokes the Divine blessing upon their union.

"II. The requirements of the laws of the state regarding the conditions for the civil contract of marriage shall in all cases be carefully observed before the marriage is solemnized.

"III. No minister shall solemnize the marriage of any person who is a minor under the law of the place of marriage, unless the parent or guardian of such minor is present and consenting, or shall have given written consent to the marriage, or is permanently resident in a foreign country. No minister shall solemnize a marriage except in the presence of at least two witnesses, the minister or the witnesses being personally acquainted with the parties. Every minister shall without delay formally record in the proper register the name, age and residence of each party. Such record shall be signed by the minister who performs the ceremony, and, if practicable by the married parties, and by at least two witnesses of the marriage.

"IV. No minister shall solemnize a marriage between any two persons unless, until by inquiry, he shall have satisfied himself that neither person has been or is the husband or the wife of any other person then living, unless the former marriage was annulled by a decree of some civil court of competent jurisdiction for cause existing before such former marriage."

## Yet to Consider the Penalty.

The bishops have yet to consider canon 37, providing for the discipline of persons marrying after having been divorced. This also will cause lively discussion. Another important feature of the work of the house of bishops was the appointment of a committee of five to act with similar committees of priests and laymen, constituting a joint committee of 15, to consider the proposed change in the name of the church. The committee has no power to act, but it is to report its findings at the next general convention, to be held in Boston, in 1904.

The house of deputies adopted the report of the joint committee on marginal readings, after agreeing to an amendment eliminating those readings, which are original with the committee.

The report as amended will now go back to the house of bishops for action on the amendment.

Both houses unanimously selected Boston as the place for holding the next triennial convention.

The first sessions of the Girls' Friendly society were held.

## FOLLOW MCKINLEY'S WISHES.

Directors of McKinley Mining and Smelting Company Met.

Buffalo, N. Y., Oct. 10.—At a meeting of the directors of the McKinley Mining and Smelting company, held here, the following officers were elected: President, M. C. Barber, Canton; vice president, F. E. Fitch, Elmira; treasurer, A. J. Hazeltine, Warren, Pa.; secretary, Dix W. Smith, Elmira.

All the provisions stipulated by President McKinley regarding the organization and capitalization of the company were observed and 200,000 shares of the capital stock was issued as having been called for. George H. Cortelyou, of Washington, and W. E. Shepherd, of New York, were elected directors, and an executive committee to manage the property was appointed.

## The Powers Trial.

Georgetown, Ky., Oct. 10.—The second trial of former Secretary of State Caleb Powers, on the charge of complicity in the Goebel assassination, was resumed in the circuit court. Among the witnesses for the commonwealth who did not testify in the prisoner's first trial are former Governor W. O. Bradley and former Congressman John Henry Wilson.

FIND THE GUIDE.

## OUR GROWING TRADE.

The Enormous Strides It Has Made Under Republican Control.

The year ended August 31, 1896, was the last year of complete Democratic rule, and our exports that year only amounted to 996 million dollars. The corresponding year just ended shows 600 million dollars gain in our exports, or nearly two-thirds.

Our imports in Mr. Cleveland's last full year, ended with August 31, were 737 million dollars, while for this year just ended, they increased only 160 million dollars, or about 15 per cent.

In Cleveland's time the exports were only 163 million dollars more than the imports, while this year there are 657 million dollars more exports than imports. The gain has been in every class of products, both agricultural and manufactured.

A still stronger statement of the general fact of progress thus shown is that the monthly statements have not for more than two years fallen below the 100 million dollar line, and now for the first time we have a total exportation for 12 months of over a billion and a half dollars of American products.

That this memorable mark should have been exceeded in the last month of President McKinley's life is a notable coincidence, coming as it does, as a result of policies that he has strenuously advocated at all times.

## A FALSE CRY.

"From the returns received at the Democratic headquarters and the many letters of encouragement, it is assured that Colonel Kilbourne will receive almost the solid support of the old soldiers in the state." This sentence from a paragraph inspired at Democratic state headquarters is good balderdash, but is of no account on earth for its veracity. The same soldiers will support Kilbourne that have voted for other Democratic candidates, whether they were soldiers or against the soldiers in the time of the civil war, except that plenty of Ohio veterans will particularly remember that Governor Nash was one of themselves as well, and will particularly remember at this time to cast their votes for him as one tribute of respect within their power to the memory of another Ohio comrade, William McKinley.

## CAN'T EVADE IT

Positive Proof From East Liverpool Can't Be Brushed Lightly Aside.

The reader is forced to acknowledge that convincing proof in his own city is preeminently ahead of endorsements from everywhere else in our republic. Read this.

Mr. W. P. Cochran, of Mulberry street, East End, says: "At intervals for thirty years I had serious kidney and bladder trouble. The agony I went through can hardly be described. Many nights I rolled from one side to another trying to find an easy position for my back. I could not move without having sharp twinges of pain, and I was also troubled with urinary difficulty, the secretions being very irregular, and at times very distressing. I ran down so that I could hardly help myself. Doctors treated me. I took a power of stuff and I had given up all hope of being cured when I saw Doan's Kidney Pills advertised as a never failing remedy. I got a box at W. & W. pharmacy and after taking half of it I could see some improvement. I continued and the treatment did me more good than anything I ever used."

## OIL MAGNATE'S SON MARRIED.

Wedding of Miss Abby Greene Aldrich and John D. Rockefeller, Jr., Occurred in Rhode Island.

Providence, R. I., Oct. 10.—The marriage of John Davidson Rockefeller, Jr., of New York, and Miss Abby Greene Aldrich, daughter of Nelson W. Aldrich, senior United States senator from Rhode Island, was celebrated at the summer residence of Senator Aldrich, at Warwick Neck, a few miles from this city.

The groom was attended by Everett Colby, of New York, who was a classmate at Brown university. He awaited the bride, who entered on the arm

of her father, and was accompanied by her sisters, Miss Lucy and Miss Elsie Aldrich. The bride was dressed in white satin, and carried a large bunch of white flowers. The bride was given away by her father. The ceremony, the Episcopal service, was witnessed by the families and intimate friends of the couple. The ushers were Lauriston Hazard, son of Mr. and Mrs. Jeffrey Hazard; Stuart Aldrich, William Aldrich and Richard Aldrich, brothers of the bride.

After the ceremony the largest and most elaborate reception ever held in the state occurred. Nearly 700 persons were present. To accommodate these a large addition had been built to the ball room, and all was transformed into a beautiful garden of flowers. The wedding breakfast was served by Sherry, of New York.

The presents, several hundred in number, were of the most artistic character. One of the most beautiful was the gift of Mrs. Rockefeller, Sr., to the bride. This was a large diamond tiara valued at \$50,000. The value of the gifts is about \$700,000.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

How any man may quickly cure himself after years of suffering from sexual weakness, lost vitality, night losses, varicocele, etc., and enlarge small weak organs to full size and vigor. Simply send your name and address to Dr. L. W. Knapp, 1604 Hull Bldg., Detroit, Mich., and he will gladly send the free receipt with full directions so that any man may easily cure himself at home. This is certainly a most generous offer, and the following extracts taken from his daily mail show what men think of his generosity:

"Dear Sir:—Please accept my sincere thanks for yours of recent date. I have given your treatment a thorough test and the benefit has been extraordinary. It has completely braced

me up. I am just as vigorous as when a boy and you cannot realize how happy I am."

"Dear Sir:—Your method worked beautifully. Results were exactly what I needed. Strength and vigor have completely returned and enlargement is entirely satisfactory."

"Dear Sir:—Yours was received, and I had no trouble in making use of the receipt as directed, and can truthfully say it is a boon to weak men. I am greatly improved in size, strength and vigor."

All correspondence is strictly confidential, mailed in plain sealed envelope. The receipt is free for the asking and he wants every man to have it.

The editors of the yellow journals which have published vile cartoons representing President McKinley as a tyrant with his foot on the necks of the people, a slave of the trusts, and the tool of the moneyed interests, should pause and consider how far they are responsible for the vile crime at Buffalo. A picture appeals instantly. The more ignorant and illogical the man, the more he is influenced by such libelous caricatures.

The outrageous cartoons, giving false and derogatory representations of men of national repute, for political ends, has received crushing condemnation from the decent newspapers all over the Union within the past two weeks. The southern press is especially outspoken, and denounces the yellow journals for this in the strongest possible terms.

The campaign in Ohio can not be one in which enthusiasm plays a great part. Rather it will be one in which will be shown a stern determination to make Ohio's voice ring out triumphantly in support of the principles for which her immortal son gave his life.

## BLOW AT DIVORCES.

Strong Position Taken by the House of Bishops, at Episcopal Convention.

### HOUSE OF DEPUTIES TO CONSIDER

The Question Today, It Was Expected—Boston Selected as Place For Holding Next Triennial Convention. Girls' Friendly Society Held Meeting

San Francisco, Oct. 10.—At the triennial Episcopal convention today occurred the adoption, by the house of bishops, by a vote of 37 to 21, of canon 36, which relates to the solemnization of marriage. All of its provisions had previously been argued, except those contained in section four, which forbade the marriage of persons divorced for any cause not existing before marriage.

The house of deputies today will take up the canon on marriage and divorce.

"For any cause not existing before marriage" is understood to refer to such causes as insanity, inability to execute a contract, the existence of a living wife or husband, or like reasons which practically render the marriage null and void. This section has been a bone of contention, a strong element in the church holding that the re-marriage of the innocent party to a divorce, granted on the ground of inability, should not be forbidden. The bishops have refused to accept this view of the matter.

The question is by no means settled, as the whole subject is now to come up in the house of deputies, where it is expected to cause a protracted debate. The canon as finally passed by the house of bishops, reads:

**What the Canon Contains.**

"Canon 36.—Of the solemnization of matrimony.

"I. The solemnization of matrimony in this church in which the mutual consent of each party entering into this state of life is given in the presence of a minister, who, having pronounced, in the name of the Holy Trinity, to be man and wife, invokes the Divine blessing upon their union.

"II. The requirements of the laws of the state regarding the conditions for the civil contract of marriage shall in all cases be carefully observed before the marriage is solemnized.

"III. No minister shall solemnize the marriage of any person who is a minor under the law of the place of marriage, unless the parent or guardian of such minor is present and consenting, or shall have given written consent to the marriage, or is permanently resident in a foreign country. No minister shall solemnize a marriage except in the presence of at least two witnesses, the minister or the witnesses being personally acquainted with the parties. Every minister shall without delay formally record in the proper register the name, age and residence of each party. Such record shall be signed by the minister who performs the ceremony, and, if practicable by the married parties, and by at least two witnesses of the marriage.

"IV. No minister shall solemnize a marriage between any two persons unless, until by inquiry, he shall have satisfied himself that neither person has been or is the husband or wife of any other person then living, unless the former marriage was annulled by a decree of some civil court of competent jurisdiction for cause existing before such former marriage."

**Yet to Consider the Penalty.**

The bishops have yet to consider canon 37, providing for the discipline of persons marrying after having been divorced. This also will cause lively discussion. Another important feature of the work of the house of bishops was the appointment of a committee of five to act with similar committees of priests and laymen, constituting a joint committee of 15, to consider the proposed change in the name of the church. The committee has no power to act, but it is to report its findings at the next general convention, to be held in Boston, in 1904.

The house of deputies adopted the report of the joint committee on marginal readings, after agreeing to an amendment eliminating those readings, which are original with the committee.

The report as amended will now go back to the house of bishops for action on the amendment.

Both houses unanimously selected Boston as the place for holding the next triennial convention.

The first sessions of the Girls' Friendly society were held.

### FOLLOW MCKINLEY'S WISHES.

Directors of McKinley Mining and Smelting Company Met.

Buffalo, N. Y., Oct. 10.—At a meeting of the directors of the McKinley Mining and Smelting company, held here, the following officers were elected: President, M. C. Barber, Canton; vice president, F. E. Fitch, Elmira; treasurer, A. J. Hazeltine, Warren, Pa.; secretary, Dix W. Smith, Elmira.

All the provisions stipulated by President McKinley regarding the organization and capitalization of the company were observed and 200,000 shares of the capital stock was issued as having been called for. George B. Cortelyou, of Washington, and W. E. Shepherd, of New York, were elected directors, and an executive committee to manage the property was appointed.

### The Powers Trial.

Georgetown, Ky., Oct. 10.—The second trial of former Secretary of State Caleb Powers, on the charge of complicity in the Goebel assassination, was resumed in the circuit court. Among the witnesses for the commonwealth who did not testify in the prisoner's first trial are former Governor W. O. Bradley and former Congressman John Henry Wilson.

### OUR GROWING TRADE.

The Enormous Strides It Has Made Under Republican Control.

The year ended August 31, 1896, was the last year of complete Democratic rule, and our exports that year only amounted to 966 million dollars. The corresponding year just ended shows 600 million dollars gain in our exports, or nearly two-thirds.

Our imports in Mr. Cleveland's last full year, ended with August 31, were 737 million dollars, while for this year just ended, they increased only 160 million dollars, or about 15 per cent.

In Cleveland's time the exports were only 163 million dollars more than the imports, while this year there are 657 million dollars more exports than imports. The gain has been in every class of products, both agricultural and manufactured.

A still stronger statement of the general fact of progress thus shown is that the monthly statements have not for more than two years fallen below the 100 million dollar line, and now for the first time we have a total exportation for 12 months of over a billion and a half dollars of American products.

That this memorable mark should have been exceeded in the last month of President McKinley's life is a notable coincidence, coming as it does, as a result of policies that he has strenuously advocated at all times.

### A FALSE CRY.

"From the returns received at the Democratic headquarters and the many letters of encouragement, it is assured that Colonel Kilbourne will receive almost the solid support of the old soldiers in the state." This sentence from a paragraph inspired at Democratic state headquarters is good balderdash, but is of no account on earth for its veracity. The same soldiers will support Kilbourne that have voted for other Democratic candidates, whether they were soldiers or against the soldiers in the time of the civil war, except that plenty of Ohio veterans will particularly remember that Governor Nash was one of themselves as well, and will particularly remember at this time to cast their votes for him as one tribute of respect within their power to the memory of another Ohio comrade, William McKinley.

### CAN'T EVADE IT

Positive Proof From East Liverpool Can't Be Brushed Lightly Aside.

The reader is forced to acknowledge that convincing proof in his own city is preeminently ahead of endorsements from everywhere else in our republic. Read this.

Mr. W. P. Cochran, of Mulberry street, East End, says: "At intervals for thirty years I had serious kidney and bladder trouble. The agony I went through can hardly be described. Many nights I rolled from one side to another trying to find an easy position for my back. I could not move without having sharp twinges of pain, and I was also troubled with urinary difficulty, the secretions being very irregular, and at times very distressing. I ran down so that I could hardly help myself. Doctors treated me. I took a power of stuff and I had given up all hope of being cured when I saw Doan's Kidney Pills advertised as a never failing remedy. I got a box at W. & W. pharmacy and after taking half of it I could see some improvement. I continued and the treatment did me more good than anything I ever used."

Sold for 50 cents per box by all dealers, Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

### OIL MAGNATE'S SON MARRIED.

Wedding of Miss Abby Greene Aldrich and John D. Rockefeller, Jr., Occurred in Rhode Island.

Providence, R. I., Oct. 10.—The marriage of John Davidson Rockefeller, Jr., of New York, and Miss Abby Greene Aldrich, daughter of Nelson A. Aldrich, senior United States senator from Rhode Island, was celebrated at the summer residence of Senator Aldrich, at Warwick Neck, a few miles from this city.

The groom was attended by Everett Colby, of New York, who was a classmate at Brown university. He awaited the bride, who entered on the arm

MISS ABBY ALDRICH.

of her father, and was accompanied by her sisters, Miss Lucy and Miss Elsie Aldrich. The bride was dressed in white satin, and carried a large bunch of white flowers. The bride was given away by her father. The ceremony, the Episcopal service, was witnessed by the families and intimate friends of the couple. The ushers were Lauriston Hazard, son of Mr. and Mrs. Jeffrey Hazard; Stuart Aldrich, William Aldrich and Richard Aldrich, brothers of the bride.

After the ceremony the largest and most elaborate reception ever held in the state occurred. Nearly 700 persons were present. To accommodate these a large addition had been built to the ball room, and all was transformed into a beautiful garden of flowers. The wedding breakfast was served by Sherry, of New York.

The presents, several hundred in number, were of the most artistic character. One of the most beautiful was the gift of Mrs. Rockefeller, Sr., to the bride. This was a large diamond tiara valued at \$50,000. The value of the gifts is about \$700,000.

**A Retort From Nature.**

Among the useful results of aerial excursions are the satisfactory experiments in the way of echoes and reverberations. John Mackenzie Bacon has many opportunities of testing the carrying of sounds to and from a balloon at a great height, and Mr. Wise, the American aeronaut, relates a case in point.

He was ballooning one day above a dense cloud stream when he heard a cow bell and the sounds of a wood-chopper's ax, whereupon, to attract the attention of the laborer, he shouted "Hello!" He was immediately answered by another "Hello!" from the ground.

He then asked the question, "How far is this from Lancaster?" and was annoyed by being mocked by his own words.

"Being in the clouds," he says, "and not able to see things above or below, I felt somewhat nettled at this clownish display of wit, and in a very audible tone of voice, while the foregoing was still reverberating in my ear, I sang out, 'You're a fool!' which in a very few seconds was answered by an equally distinct and measured tone of voice, 'You're a fool!'"

"Then it suddenly flashed upon my mind that it was the echo of my own voice, which opinion was ratified by the dying reverberations of my words, which had now become as numerous as though a whole regiment had caught the watchword and were passing it in quick succession through the whole line."

**Orderly Habits.**

"It is a curious fact," commented a man recently, "that almost no mother realizes the importance of bringing her son up to orderly habits. She impresses upon her daughters from the time they are old enough to recognize any responsibility the necessity to keep their rooms tidy, put away articles after use and care for their belongings at all times."

The boy, however, is exempt from any similar requirement not only in his own room, but throughout the house. He reads newspapers and throws them on the floor, gets up from a divan leaving the cushions packed and shapeless, without the slightest reproach, the only notice taken of the occurrence, indeed, being to ask a sister, if he has one, to pick up the one and straighten the other. The women of the family follow in his footsteps all day long, removing whatever disorder he creates.

Yet there is no business occupation upon which that boy will presently enter in which order is not a fundamental necessity. Girls, on the other hand, do not, as a rule, suffer so seriously from a lack of order, or at least consequences are not so continually disagreeable and costly as is the case with boys."—New York Post.

**Accepted Situation.**

Miss Clara Bursner, of the Ohio Valley Business College, has accepted a position as stenographer with the William Brunt Pottery company.

There is talk of forming a national league of professional billiardists. A. C. Anson, in discussing the subject, says:

"I see no reason why a billiard league should not be made to pay, just as a baseball league is made to pay."

"My idea would be to have a half dozen or perhaps only four cities compose the organization at the outset, others to be taken in if the organization was found to be successful. If there were to be six cities, we would have Chicago, St. Louis and Pittsburg in the west and New York, Philadelphia and Boston in the east. If only four cities were taken in at the start, they would be Chicago, St. Louis, New York and Philadelphia."

"As for the details of home management, my idea would be to charge a nominal admission fee. There would be no betting features, such as prevail at these so called academies, but at the same time I do not mean to say spectators would not be allowed to bet."

"Such a league run in the winter season when there was little other professional sport would, in my opinion, come to be a paying institution, and if good, responsible men could be found to take it up in other cities I believe I should be willing to undertake a part of the Chicago end of the scheme."

**Paupers.**

England spends \$8,400,000 a year on her paupers; Scotland, \$900,000; Ireland, \$1,400,000; France spends less than \$1,500,000.

**Costly Silk.**

Until after the sixth century of our era all silk imported from the east to the west was valued at its weight in gold. The silken goods were put into one scale and enough gold to balance them was placed in the other.

**Granite Boys.**

New Hampshire men are called Granite boys.

**As Mill Put It.**

John Stuart Mill's humorous home version of the "prophet without honor" proverb was expressed in his remark to Caroline Fox, "My family have no idea how great a man I am."

#### A Retort From Nature.

Among the useful results of aerial excursions are the satisfactory experiments in the way of echoes and reverberations. John Mackenzie Bacon has many opportunities of testing the carrying of sounds to and from a balloon at a great height, and Mr. Wise, the American aeronaut, relates a case in point.

He was ballooning one day above a dense cloud stream when he heard a cow bell and the sounds of a wood-chopper's ax, whereupon, to attract the attention of the laborer, he shouted "Hello." He was immediately answered by another "Hello!" from the ground.

He then asked the question, "How far is this from Lancaster?" and was annoyed by being mocked by his own words.

"Being in the clouds," he says, "and not able to see things above or below, I felt somewhat nettled at this clownish display of wit, and in a very audible tone of voice, while the foregoing was still reverberating in my ear, I sang out, 'You're a fool!' which in a very few seconds was answered by an equally distinct and measured tone of voice. 'You're a fool!'"

"Then it suddenly flashed upon my mind that it was the echo of my own voice, which opinion was ratified by the dying reverberations of my words, which had now become as numerous as though a whole regiment had caught the watchword and were passing it in quick succession through the whole line."

#### Orderly Habits.

"It is a curious fact," commented a man recently, "that almost no mother realizes the importance of bringing her son up to orderly habits. She impresses upon her daughters from the time they are old enough to recognize any responsibility the necessity to keep their rooms tidy, put away articles after use and care for their belongings at all times.

The boy, however, is exempt from any similar requirement not only in his own room, but throughout the house. He reads newspapers and throws them on the floor, gets up from a divan leaving the cushions packed and shapeless, without the slightest reproach, the only notice taken of the occurrence, indeed, being to ask a sister, if he has one, to pick up the one and straighten the other. The women of the family follow in his footsteps all day long, removing whatever disorder he creates.

Yet there is no business occupation upon which that boy will presently enter in which order is not a fundamental necessity. Girls, on the other hand, do not, as a rule, suffer so seriously from a lack of order, or at least consequences are not so continually disagreeable and costly as is the case with boys."—New York Post.

#### Accepted Situation.

Miss Clara Bursner, of the Ohio Valley Business College, has accepted a position as stenographer with the William Brunt Pottery company.

There is talk of forming a national league of professional billiardists. A. C. Anson, in discussing the subject, says:

"I see no reason why a billiard league should not be made to pay, just as a baseball league is made to pay.

"My idea would be to have a half dozen or perhaps only four cities compose the organization at the outset, others to be taken in if the organization was found to be successful. If there were to be six cities, we would have Chicago, St. Louis and Pittsburg in the west and New York, Philadelphia and Boston in the east. If only four cities were taken in at the start, they would be Chicago, St. Louis, New York and Philadelphia.

"As for the details of home management, my idea would be to charge a nominal admission fee. There would be no betting features, such as prevail at these so called academies, but at the same time I do not mean to say spectators would not be allowed to bet. "Such a league run in the winter season when there was little other professional sport would, in my opinion, come to be a paying institution, and if good, responsible men could be found to take it up in other cities I believe I should be willing to undertake a part of the Chicago end of the scheme."

#### Paupers.

England spends £8,400,000 a year on her paupers; Scotland, £900,000; Ireland, £1,400,000; France spends less than £1,500,000.

#### Costly Silk.

Until after the sixth century of our era all silk imported from the east to the west was valued at its weight in gold. The silken goods were put into one scale and enough gold to balance them was placed in the other.
